Visual, Behavior & Social Strategies: Discover the Latest Technology and Evidence-Based Solutions for the Student/Child with Autism

February 9-10, 2012

Voorhees, NJ * The Mansion on Main Street

Practical Technology Solutions for the Student with Autism Spectrum Disorder

This session provides interactive, innovative and practical technology-based solutions for the student with Autism Spectrum Disorder. Participants will engage in activities to further expand their understanding of Apps, Web 2.0 solutions, and general technology tools applicable to challenges in the area of academic, functional, and social growth and development. This presentation will cover numerous technology solutions and a specific training device is not required by participants.

Sean Smith Ph.D. is an associate professor in the Department of Special Education as well as an associate researcher with the Center for Research on Learning and the eLearning Design Lab at the University of Kansas. A researcher, developer and teacher educator, Sean is passionate about helping struggling students and those with special needs experience success. You will leave his session with technology-based solutions applicable to the needs of ALL students, but critical to the success of those with learning challenges.

Learning outcomes associated with this professional development include:

- Participants will be able to identify, describe and utilize consideration/implementation tools specific to technology solutions.
- Participants will be able to describe and utilize a framework for technology understanding and application, specific to the characteristics associated with individuals with autism spectrum disorder.
- Participants will be able to analyze, select, and integrate Apps specific to learning, adaptive and social development needs.
- Participants will be able to demonstrate knowledge in technology-based solutions in the area of academic, adaptive and social development for individuals with autism spectrum disorder.
- Participants will be able to critique, search, compare, and integrate technology-based solutions specific to the general learning and social/behavioral needs of students with autism spectrum disorder.

Professional Development Offered:

Graduate Credit is available through Marian University for this conference. Cost per credit is \$250. Email info@aepconnections.com for detailed information.

Professional Development Hours Offered
ASHA CEUs

ASHA Continuing Education units are offered through cooperation with Easter Seals DuPage and the Fox Valley Region.

This cooperative offering is offered for up to 1.2 CEU's per day (Intermediate level; Professional area).

Visual, Behavior & Social Strategies: Discover the Latest Technology and Evidence Based Solutions for the Student/Child with Autism

February 9-10, 2012
Voorhees, NJ * The Mansion on Main Street

Strategies That Work: Creating Success For Students/Children with ASD By Brenda Smith Myles, Ph.D.

Be ready to laugh and learn with this entertaining and informative presentation! Children and students with Asperger Syndrome, High Functioning Autism, pervasive developmental disorders-not otherwise specified (PDD-NOS), and related exceptionalities have great potential, but all too often their abilities are not realized. Brenda Smith Myles, was the second most productive applied researcher in the field of autism from 1997-2004. She will provide current evidence-based ideas and strategies for teachers and parents that are useful in assisting each individual with ASD to reach his or her potential. This presentation will highlight social, communication, self-regulation, sensory and academic interventions that teachers and parents can implement immediately! Also included is what can cause anxiety for the student with Asperger syndrome/high functioning autism, how this can lead to decreased academic, social performance, attention to task, and potential increases in behavior problems. You won't want to miss this dynamic presentation!

Learner Outcomes:

- Identify strategies that lay the foundation for student success.
- Describe how to implement these strategies in school and community settings.
- Match and modify strategies to match the needs of individuals on the spectrum.
- Identify evidence-based social and communication supports for individuals with ASD.
- Identify evidence-based self-regulation and sensory supports for individuals with ASD.
